

## Safety Regulations of Sailing 2021 – 2024 Amendment:

### Changes to administrative arrangements for craft and crew adequacy under section 21

Administrative arrangements to meet the section 21 adequacy requirements for New Zealand registered recreational craft going overseas were previously delivered by Yachting NZ and Yachting NZ Inspectors under delegation from the Director of Maritime NZ (referred to as a CAT 1 Certificate).

From 1 July 2024, Maritime NZ will assume the administration and delivery of these requirements. Those wanting to take their New Zealand registered recreational craft overseas will apply to Maritime NZ for an International Voyage Certificate (Pleasure Craft).

For information on how to apply for an International Voyage Certificate please go to the Maritime New Zealand website here:
